JULY 2005

---

## Let's Talk Powdery Mildew 2005 Experimental Plot

**WHAT:** Field Meeting  
**WHERE:** Avenue 13 at Cottonwood Creek  
**WHEN:** Thursday, July 14, 2005  
9:00 a.m. - 12:00 Noon

---

**Sessions will begin at 9:00, 10:00 and 11:00 a.m.**

Come by the plot (see map and directions) for about one hour of talking about and looking at the results of the 2005 powdery mildew plot. The pressure at this location has been moderate and differences are observable. We have 1 hour of PCA/PA/QAL credit available for this meeting.

This year we have tested new modes of action, softer chemistry and, of course, continued looking at resistance management.

**Directions:** North of Madera - 99 south - take Firebaugh/Kerman Hwy. 145 exit. At freeway exit go left 40 yards and turn right on Madera Avenue. Go south one mile to Avenue 13. Turn left (East) 2 3/4 miles to plot. Look for University of California signs along the road.

South of Madera (a) take 99 North to Avenue 12. Turn right (East) approximately 40 yards to Road 29 (it is the 1st possible left on top of the overpass without going back onto the freeway). Turn left (North) go one mile to Avenue 13. Turn right, go approximately 3/4 mile to plot.

(b) Kerman/Biola area - 145 North toward Madera to Avenue 13. Turn right (East) 2 3/4 miles.

**If you get to Cottonwood Creek you just missed the plot.**
